

Programming Assignment 1

CS4280

60 points

Due Date: Sep 21, 2017 11:59pm

The rosette is an n -gon with each vertex connected to every other vertex. The figures below show 5-, 8-, 11-, and 21-rosettes respectively. Using our `webgl_helper.js`, write a WebGL program that, given n (the number of vertices), draws the corresponding rosette. Submit your .html file via Canvas.

NOTE: Up to 10% of the grade will be towards making sure that your program is easily readable, clearly documented or commented on, and properly indented.
